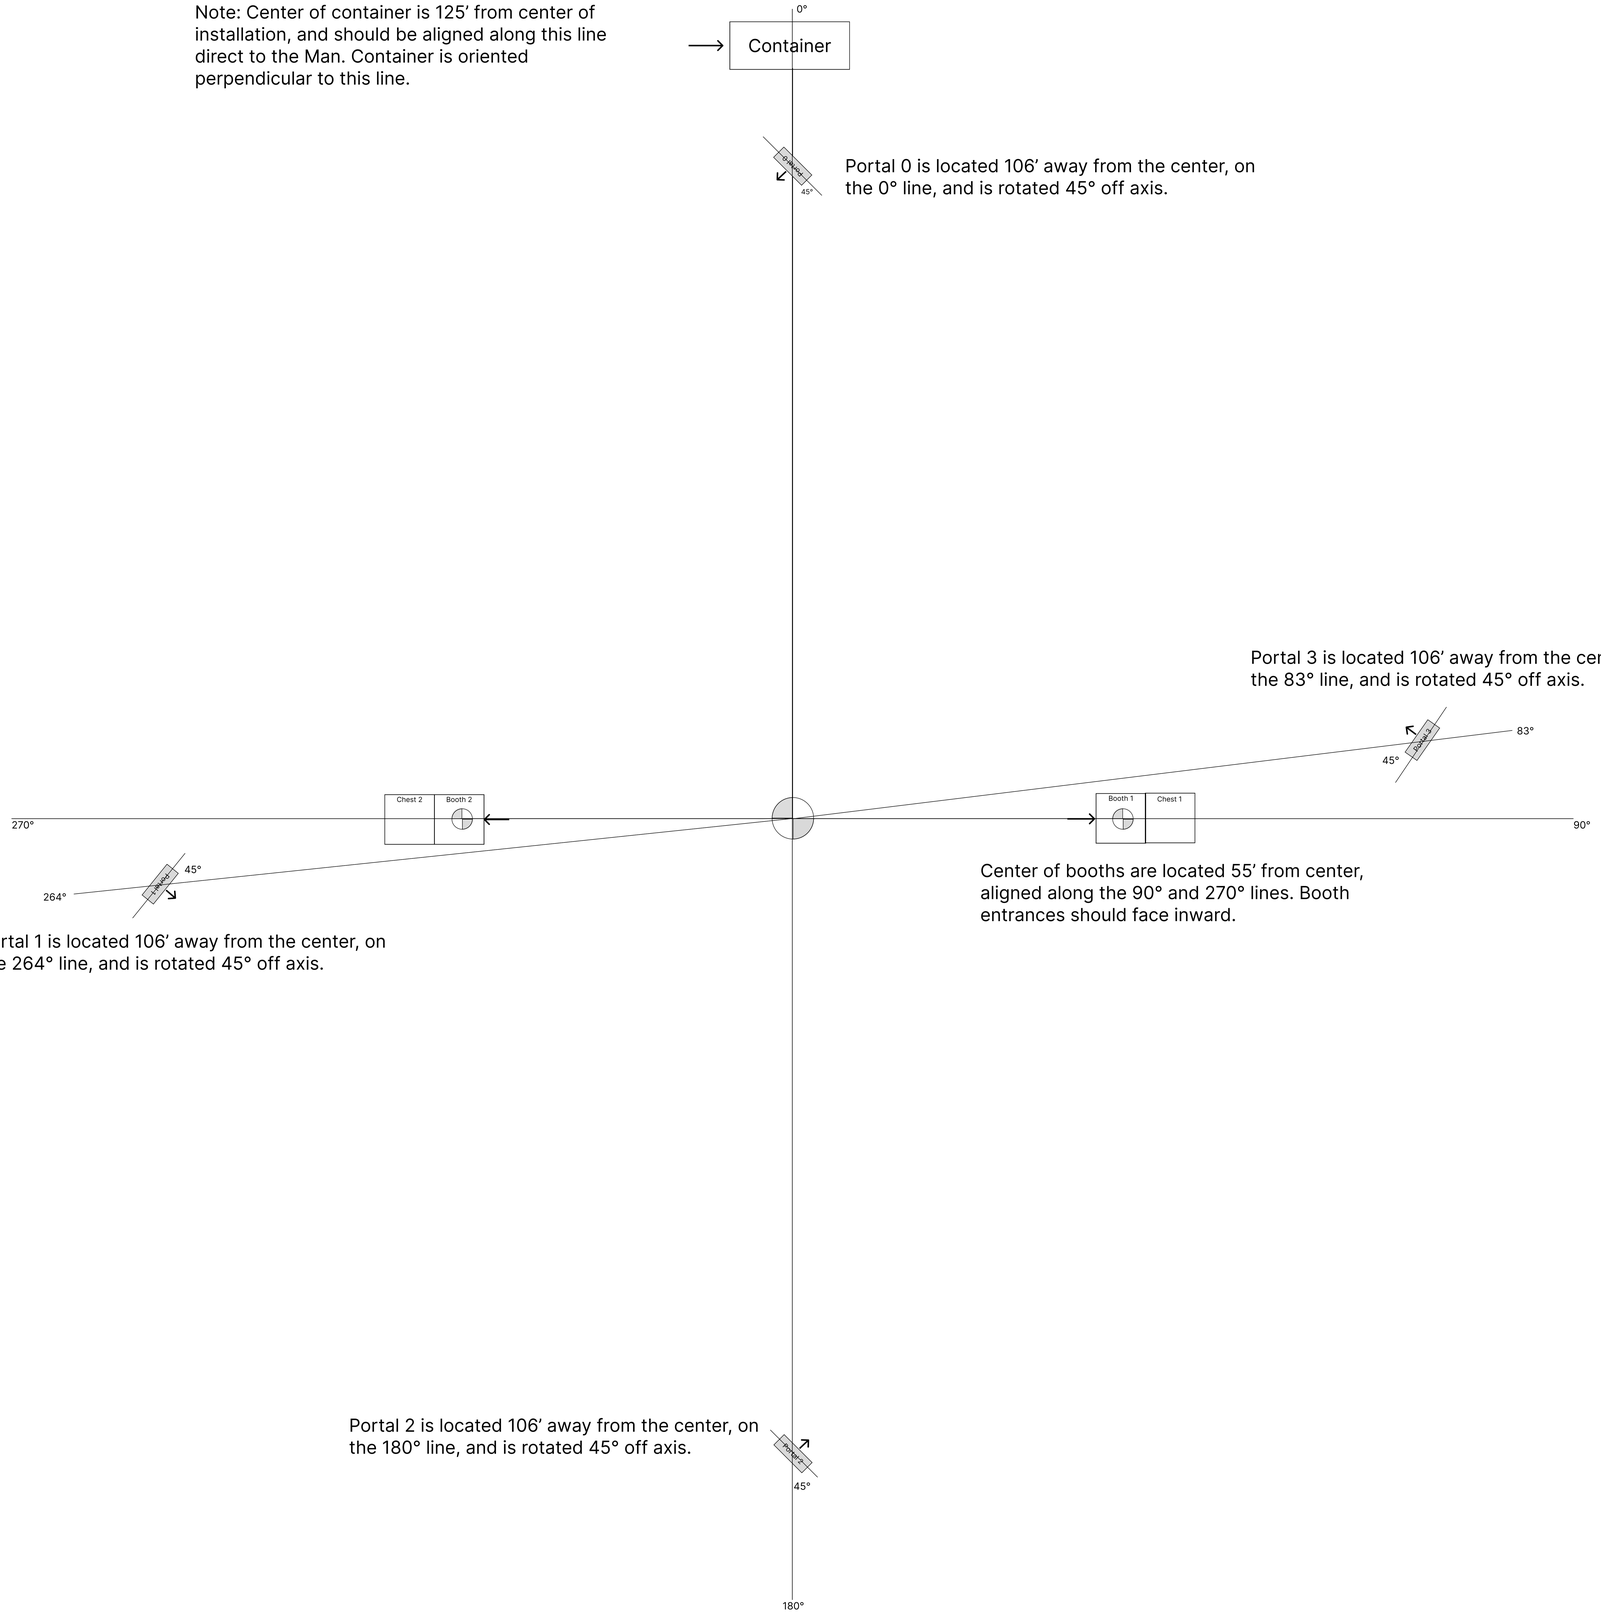
Note: Center of container is 125’ from center of installation, and should be aligned along this line direct to the Man. Container is oriented perpendicular to this line.



Portal 0 is located 106’ away from the center, on the 0° line, and is rotated 45° off axis.

Portal 3 is located 106’ away from the center, on the 83° line, and is rotated 45° off axis.

Center of booths are located 55’ from center, aligned along the 90° and 270° lines. Booth entrances should face inward.

Portal 1 is located 106’ away from the center, on the 264° line, and is rotated 45° off axis.

Portal 2 is located 106’ away from the center, on the 180° line, and is rotated 45° off axis.
